our process

1. RESERVATION DEPOSIT

With a deposit of \$15,000, we will save your spot in our production queue making sure your sauna is ready when you need it.

2. SIGN CONTRACT

Let's get all the details on paper. Our team will work with you on all aspects of your project. We will consult on design choices, final finishes, site access, and utility preparation.

3. SIT BACK & RELAX

As we begin ordering and construction, our team will keep you updated as your sauna is being built. Most projects move from deposit to completion in 4-6 months. Our team will work with you on a target date for installation to ensure any needed site prep is completed.

4. SHIPPING & INSTALLATION

When your sauna is complete we will coordinate shipping with our carriers and any needed local contractors. Installation commonly lasts 1-3 days. Then you can start enjoying your sauna practice.

Contact our team to get started.

site prep & installation

PRIOR TO INSTALLATION:

For release of shipment of sauna our team will confirm all required site prep is completed.

Site prep includes:

- Leveling of ground elevation slope near pad
- Installation of four 18” in diameter concrete footings
- Installation of crushed rock pad for appropriate drainage
- Electrical run to sauna site (240v 60 amp Service)
- Water lines run to sauna site (if outdoor shower is ordered)

Our project manager will provide you with your fully detailed site plan to clarify any communication with on-site contractors and/or permitting.

INSTALLATION:

Cedar and Stone delivery and complete installation includes:

- Delivery to site from Duluth, MN (shipping quoted separately)
- On-site final leveling onto concrete footings
- Final Detailing, cleaning, and handoff for client
- Full white glove service with all details managed by our team

our commitment to you

For me, the sauna is beautiful and sacred.

Growing up, the sauna was the space our family gathered. Second, only to the dinner table. This practice has shaped my life.

Now it's an honor to invite more people to lives removed from screens and impacted with sauna.

The ritual of sauna has been impacting lives for thousands of years. Over the next decade we are committed to host 1 million people in our saunas to build more resilient lives.

If you are considering one of our saunas for your home, or a commercial setting, we have endeavored to create saunas that are committed to beautiful design, long lasting quality, and sustainable materials.

May you invite others into the cultural gift of sauna that continues to impact lives so deeply.

Stay warm,

Justin Juntunen
